Exercise 3 (Due by May 16)

1. Consider the following sentence:

(1) Peter forbade Mary to meet Kim in the park.

(a) Raise or control? Argue for one of them!

(b) Give the elementary trees of an FTAG $G$ that derives (1), along the lines of the examples presented in the lecture. Assume the elementary tree for “in the park” to have the following shape:

```
      VP
     /   \
VP*   PP
      /    \
 in the park
```

(c) Give the derived tree and the derivation tree for (1), according to $G$.
