

Einladung zu einem Gastvortrag des SFB 441, Emmy-Noether Gruppe Kallmeyer

Am Donnerstag, den 6. März 2008 um 10 Uhr c.t.  
im Raum 3.08, SFB 441 (Nauklerstr. 35)

spricht Benoit Crabbé (Université Paris 7)

zum Thema:

Grammatical development with XMG

Zusammenfassung:

In this talk I will introduce some key notions of eXtensible MetaGrammar, a language for describing grammatical information for tree-based formalisms of the Tree Adjoining Grammar and related formalisms family. The talk will focus on implementation issues related to the design of a large scale Tree Adjoining Grammar for French and its interface with the lexicon.

Zu diesem Vortrag laden wir herzlich ein.

Laura Kallmeyer, Timm Lichte, Wolfgang Maier, Yannick Parmentier
