## 1. Product

The TüBa-D/S treebank is a syntactically annotated corpus of spontaneous speech dialogs. The dialogs were recorded and transcribed in the project VerbMobil. The treebank currently comprises approximately 38.000 sentences. It is annotated on four levels: the lexical level, the phrasal level, the level of topological fields, and the clausal level. In addition to constituent structure, annotated trees contain edge labels between nodes. These edge labels encode grammatical functions (as relations between phrases) and the distinction between heads and non-heads (as phrase-internal relations).

Copyright of the linguistic annotation of TüBa-D/S is to the Seminar für Sprachwissenschaft at the Eberhard-Karls Universität Tübingen.

## 2. License

LICENSER grants LICENSEE a non-exclusive license to use the TüBa-D/S treebank. LICENSEE agrees

- to use the treebank only for non-commercial, non-profit research purposes;
- to make no changes to the treebank;
- and to acknowledge the use of the treebank in all publications reporting on results produced with the help of the TüBa-D/S treebank.

Use of the treebank or use of data derived from the treebank for any commercial purposes requires explicit written agreement of LICENSER.

## 3. Non-Disclosure

The TüBa-D/S treebank will be held in confidence by LICENSEE and will not be

disclosed by LICENSEE to third parties, except for those parts of the treebank that are explicitly marked for public use, and except for example sentences in scientific publications.

LICENSEE shall and will employ all necessary precautions to ensure that no persons or institutions other than persons as are in the employ of LICENSEE or in the same research project as LICENSEE will get access to the TüBa-D/S treebank or parts thereof. Other persons or institutions desiring access to the treebank should be directed to LICENSER to obtain separate license agreements.
