

1st Call for Papers
ESSLLI 2016 STUDENT SESSION

Held during the 28th European Summer School in Logic, Language and Information

Bolzano, Italy, August 15-26, 2016

Deadline for submissions: March 10th, 2016
<https://easychair.org/conferences/?conf=esslilstus2016>

ABOUT:

The Student Session of the 28th European Summer School in Logic, Language, and Information (ESSLLI) will take place in Bolzano, Italy, August 15th to 26th (<http://esslli2016.unibz.it>). We invite submissions of original, unpublished work from students in any area at the intersection of Logic & Language, Language & Computation, or Logic & Computation. Submissions will be reviewed by several experts in the field, and accepted papers will be presented orally or as posters and selected papers will appear in the Student Session proceedings by Springer. This is an excellent opportunity to receive valuable feedback from expert readers and to present your work to a diverse audience.

ORAL/POSTER PRESENTATIONS:

Note that there are two separate kinds of submissions, one for oral presentations and one for posters. This means that papers are directly submitted either as oral presentations or as poster presentations. Reviewing and ranking will be done separately. We particularly encourage submissions for posters, as they offer an excellent opportunity to present smaller research projects and research in progress.

SUBMISSION GUIDELINES:

Authors must be students, and submissions may be singly or jointly authored. Each author may submit at most one single and one jointly authored contribution. Submissions should not be longer than 8 pages for an oral presentation or 4 pages for a poster presentation (including examples and references). Submissions must be anonymous, without any identifying information. More detailed guidelines regarding submission can be found on the Student Session website: <http://www2.sfs.uni-tuebingen.de/esslli-stus-2016/>.

SPONSORSHIP AND PRIZES

As in previous years, Springer has kindly agreed to sponsor the ESSLLI student session. The best poster and best talk will be awarded Springer book vouchers of 500€ each.

FURTHER INFORMATION:

Please direct inquiries about submission procedures or other matters relating to the Student Session to marisa.koellner@uni-tuebingen.de and rziai@sfs.uni-tuebingen.de.

ESSLLI 2016 will feature a wide range of foundational and advanced courses and workshops in all areas of Logic, Language, and Computation. For further information, including registration information and course

listings, and for general inquiries about ESLLI 2016, please consult the main ESLLI 2016 page: <http://esslli2016.unibz.it>.

Kind regards,

The ESLLI 2016 Student Session Organization Committee
