

# <sup>+</sup>AUC T<sub>E</sub>X Reference Card

(for version 9)

## Conventions Used

Carriage Return	RET
Tabular	TAB
Linefeed	LFD

Mode variables: You want to change the variables found in the file ‘`tex-site.el`’ in the AUC-T<sub>E</sub>X distribution for your site. The other variables should be set by the individual user.

Entering LaTeX mode calls the value of `text-mode-hook`, then the value of `TeX-mode-hook`, and then the value of `LaTeX-mode-hook`.

## Shell Interaction

Save Document	C-c C-d
Run a command on the master file	C-c C-c
Run a command on the buffer	C-c C-b
Run a command on the region	C-c C-r
Kill job	C-c C-k
Recenter output buffer	C-c C-l
Next error in T <sub>E</sub> X/LaTeX session	C-c ‘
Toggle debug of wonderful boxes	C-c C-w
Switch to master file or active buffer	C-c ^

Commands you can run on the master file (with C-c C-c) or the region (with C-c C-r) include the following.

T <sub>E</sub> X	TeX
Run T <sub>E</sub> X Interactively	TeX Interactive
